

Virginia Fone Net Preamble

Calling the Virginia Fone Net, Calling the Virginia Fone Net,
Calling the Virginia Fone Net

This is _____, and my name is _____, and I will be your Net Control for the Virginia Fone Net this evening.

My QTH is _____, and my Net Number is # _____.

Is there any Emergency or Priority Traffic for the Net ?

Is there an Area 4 Representative on Frequency ?

Is there any QNC or Message Traffic for the Net ?

The Virginia Fone Net is an independent and directed net which meets twice daily, at 4pm and 7:30 pm Eastern time on 3947 Khz., to pass traffic into, out of, and thru-out of the Commonwealth of Virginia.

We do this as a public service, and to handle Net Business and Informal Messages, and to promote Friendship and Fellowship among all Radio Amateurs. All Amateurs are welcome to check into this net.

We ask that all stations not interested in the Virginia Fone Net to please QSY slightly and politely, so we can handle the Net business and turn the frequency back to General Amateur use as quickly as possible.

Thanks to everyone for your co-operation.

This is a Directed Net and I will take Mobile check-ins first, followed by Life Members, General Roster, and then Visitor check-ins.

I will then take comments in the same order as check-ins.

With that said.....Are there any **Mobile** Fone Net members wishing to check in? come now?.....

Are there any **Lifetime** members on frequency? come now

This is a even/odd day, so we will start with the SM/LG numbers and work our way to the LG/SM numbers.

Take **General Roster** Check-ins.....

Are there any **Visitors** for the Virginia Fone Net? come now.....

Get the Health and Welfare Report : KB4CAU Mike, Give us the Health & Welfare Report.....

Do the Birthday Hummm, and take comments from any Birthday Members for this day that have checked in.....

Take Comments from **Life Members**

Take Comments from **Regular Members**

Take **Visitor** Comments

Ask for Late Check-ins, Members and Visitors and take their comments.....

Closing the Net

(After you have taken all comments and have no further check-ins say,)

This will conclude this Session of the Virginia Fone Net. I would like to thank everyone who participated!

We will look forward to seeing you again tomorrow evening, at 4pm and 7:30 pm right here on 3947 Khz for another Virginia Fone Net.

This is _____turning the frequency back to normal Amateur use at (current time) hrs____min____GMT (or local)

God Bless America, Our Troops , and Our Virginia Fone Net Family, Good evening to all, this is, _____,This Net is Now Closed.

(Make sure you upload your Log to the VFN Logger)
